GOLD MINES

Building a Canadian Gold Company

July 2021

# Disclaimer

## Terms of Use and Disclaimer

This presentation is being provided for the sole purpose of providing the recipients with background information about Fury Gold Mines Limited. (the "Company"). The Company has made reasonable efforts to ensure that the information contained in this presentation is accurate as of the date hereof; however, there may be inadvertent or unintentional errors. No representation, warranty or guarantee, express or implied, is made as to the fairness, accuracy, completeness or correctness of information contained in this presentation, including the accuracy, likelihood of achievement or reasonableness of any forecasts, prospects, results or statements in relation to future matters contained in this presentation. The views and information provided herein are based on a number of estimates and assumptions that are subject to significant exploration, business, economic, regulatory and competitive uncertainties. The Company is not liable to any recipient or third party for the use of or reliance on the information contained in this presentation.

## Cautionary Note Regarding Forward-Looking Information

This release includes certain statements that may be deemed contains "forward-looking information" or "forward-looking statements" within the meaning of applicable securities laws and relate to the future operations of the Company and other statements that are not historical facts. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as "plans", "expects", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", or "believes", or the negatives and/or variations of such words and phrases, or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur", "be achieved" or "has the potential to". Forward-looking information is information that includes implied future performance and/or forecast information. Forward-looking information and statements in this release reflects management's current estimates, predictions, expectations or beliefs regarding future events. Specific forward-looking information contained in this release includes information relating to the Company's mineral properties, and the Company's development, exploration and growth plans for its material properties, including, without limitation, with respect to the focus, scope, timing and cost of such development, exploration and growth plans. There can be no assurance that such statements will prove to be accurate, and actual results and future events could differ materially from those anticipated in such statements. Forward-looking information reflects the beliefs, opinions and projections on the date such statements are made and are based on a number of assumptions and estimates that, while considered reasonable at the time, are inherently subject to significant business, economic, competitive, political and social uncertainties and contingencies. Such assumptions, which may prove to be incorrect, include: general economic and industry growth rates; the Company's budget, including expected costs and the assumptions regarding market conditions; the Company's ability to raise additional capital to proceed with its exploration, development and operations plans; the Company's ability to obtain or renew the licenses and permits necessary for its current and future operations; and the Company's assumptions around the impact of the COVID-19 pandemic. Although the Company believes that the assumptions and expectations reflected in those forward-looking statements were reasonable at the time such statements were made, there can be no assurance that such assumptions and expectations will prove to be correct. Forward-looking information involves known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements of the Company to be materially different (either positively or negatively) from any future results, performance or achievements expressed or implied by such forward-looking statements, including risks relating, but not limited, to: the COVID-19 pandemic; the future price of minerals, including gold and other metals; and the success of the Company's exploration and development activities. Readers should refer to the risks discussed in the Company's Annual Information Form and MD&A for the year ended December 31, 2019 and subsequent continuous disclosure filings with the Canadian Securities Administrators available at [www.sedar.com](http://www.sedar.com) and the Company's Annual Report on Form 40-F for the year ended December 31, 2019 filed with the United States Securities and Exchange Commission (the "SEC") and available at [www.sec.gov](http://www.sec.gov). Readers should not place undue reliance on forward-looking information, which speaks only as of the date made. The forward-looking information contained in this news release is expressly qualified by this cautionary statement. The forward-looking information and statements contained in this press release represent the Company's expectations as of the date of this press release or the date indicated. The Company disclaims any intention or obligation or undertaking to update or revise any forward-looking information or statements whether as a result of new information, future events or otherwise, except as required under applicable securities law.

# Cautionary Note to United States Investors

This presentation uses the terms “mineral reserve”, “proven mineral reserve”, “probable mineral reserve”,<sup>1</sup> “mineral resource”, “measured mineral resource”, “indicated mineral resource” and “inferred mineral resource”, which are Canadian mining terms as defined in, and required to be disclosed in accordance with, National Instrument 43-101 - Standards of Disclosure for Mineral Projects (“NI 43-101”), which references the guidelines set out in the Canadian Institute of Mining, Metallurgy and Petroleum – Definition Standards on Mineral Resources and Mineral Reserves (“CIM Definition Standards”), adopted by the CIM Council, as amended. However, these terms are not defined terms under the SEC’s new mining rules. The SEC has adopted amendments to its disclosure rules to modernize the mineral property disclosure requirements for issuers whose securities are registered with the SEC under the United States Securities Exchange Act of 1934, as amended. These amendments became effective February 25, 2019 (the “SEC Modernization Rules”) with compliance required for the first fiscal year beginning on or after January 1, 2021. United States investors are cautioned that there are differences in the definitions under the SEC Modernization Rules and the CIM Definition Standards. There is no assurance any mineral resources that the Company may report as “measured mineral resources”, “indicated mineral resources” and “inferred mineral resources” under NI 43-101 would be the same had the Company prepared the resource estimates under the standards adopted under the SEC Modernization Rules. United States investors are also cautioned that while the SEC will now recognize “measured mineral resources”, “indicated mineral resources” and “inferred mineral resources”, investors should not assume that any part or all of the mineralization in these categories will ever be converted into a higher category of mineral resources or into mineral reserves. Mineralization described using these terms has a greater amount of uncertainty as to their existence and feasibility than mineralization that has been characterized as reserves. Accordingly, United States investors are cautioned not to assume that any “measured mineral resources”, “indicated mineral resources” or “inferred mineral resources” that the Company reports are or will be economically or legally mineable. Further, “inferred mineral resources” have a greater amount of uncertainty as to their existence and as to whether they can be mined legally or economically. Therefore, United States investors are also cautioned not to assume that all or any part of the “inferred mineral resources” exist. In accordance with Canadian securities laws, estimates of “inferred mineral resources” cannot form the basis of feasibility or other economic studies, except in limited circumstances where permitted under NI 43-101. Accordingly, information contained in this presentation describing the Company’s mineral deposits may not be comparable to similar information made public by United States companies subject to the reporting and disclosure requirements under the United States federal securities laws and the rules and regulations thereunder including the SEC Modernization Rules.

## Technical and Scientific Information

Except where otherwise stated in this presentation, the scientific and technical information included herein has been derived or based on the following technical reports prepared in accordance with NI 43-101: (a) the technical report entitled “Technical Report, Updated Mineral Resource Estimate and Preliminary Economic Assessment on the Eau Claire Gold Deposit, Clearwater Property, Quebec, Canada” dated effective February 4, 2018, prepared by Eugene Puritch, P.Eng., FEC, CET, Antoine Yassa, P.Geo., Andrew Bradfield, P.Eng., Allan Armitage, Ph.D., P.Geo. (the “Eau Claire Report”); (b) the amended and restated technical report entitled “Technical Report on the Committee Bay Project, Nunavut Territory, Canada” dated October 23, 2017, and with an effective date of May 31, 2017, prepared by David Ross, M.Sc., P.Geo. (the “Committee Bay Report”); and (c) the amended and restated technical report entitled “Technical Report, Updated Mineral Resource Estimate and Preliminary Economic Assessment on the Homestake Ridge Gold Project, Skeena Mining Division, British Columbia” dated effective May 29, 2020, and amended and restated on June 24, 2020, prepared by Paul Chamois, P.Geo, Philip Geusebroek, P.Geo., Mary Mioska, P.Eng., and David M. R. Stone, P.Eng. (the “Homestake Ridge Report”), each of which has been filed with Canadian securities regulatory authorities on SEDAR (and is available at [www.sedar.com](http://www.sedar.com)) and with the Securities and Exchange Commission on EDGAR (and is available at [www.sec.gov](http://www.sec.gov)). Additional disclosure in this presentation of a scientific or technical nature with respect to the Eau Claire Project, the Committee Bay Project or the Homestake Ridge Project, including any such information arising since the date of the applicable technical report, was reviewed and approved by David Rivard, P.Geo, Senior Exploration Manager of the Company, who is a “qualified person” for the purposes of NI 43-101.

1. Note: There is one reference to P&P reserves on slide 14.

# Investment Highlights

## Fury is Poised for Significant Growth and Discovery

- ▶ Proven team with actionable knowledge and experience
- ▶ High-grade platform of gold projects in Canada
- ▶ Significant exploration upside and resource expansion
- ▶ Discovery opportunity through portfolio wide drilling
- ▶ Attractive valuation given upside potential

# Project Platform to Grow with Exploration

## Advancing High-Grade, Low-Risk Gold Portfolio

### Committee Bay

**Nunavut, MRE '17**

Ind<sup>3</sup>: 524,000 oz at 7.85g/t Au

Inf<sup>3</sup>: 720,000 oz at 7.64 g/t Au

**Pursuing multi-million ounce discoveries**

### Eau Claire

**Quebec, PEA '18**

Ind<sup>1</sup>: 808,000 oz at 6.65 g/t Au

Inf<sup>1</sup>: 458,000 oz at 7.48 g/t Au

**Target to multiply with exploration along 5km deposit trend**

### Homestake Ridge

**British Columbia, PEA '20**

Ind<sup>2</sup>: 155,700 oz. at 8.18 g/t Au, 1.7M oz. at 90.5 g/t Ag

Inf<sup>2</sup>: 734,200 oz at 5.52g/t Au 15.8M oz. at 118.6 g/t Ag

**Drilling high-grade ore-shoot and converting Homestake Silver**

Growth from increasing scale  
and finding more gold

# Capital Structure and Share Price Performance

## Long Term Retail Shareholder Base a Strength

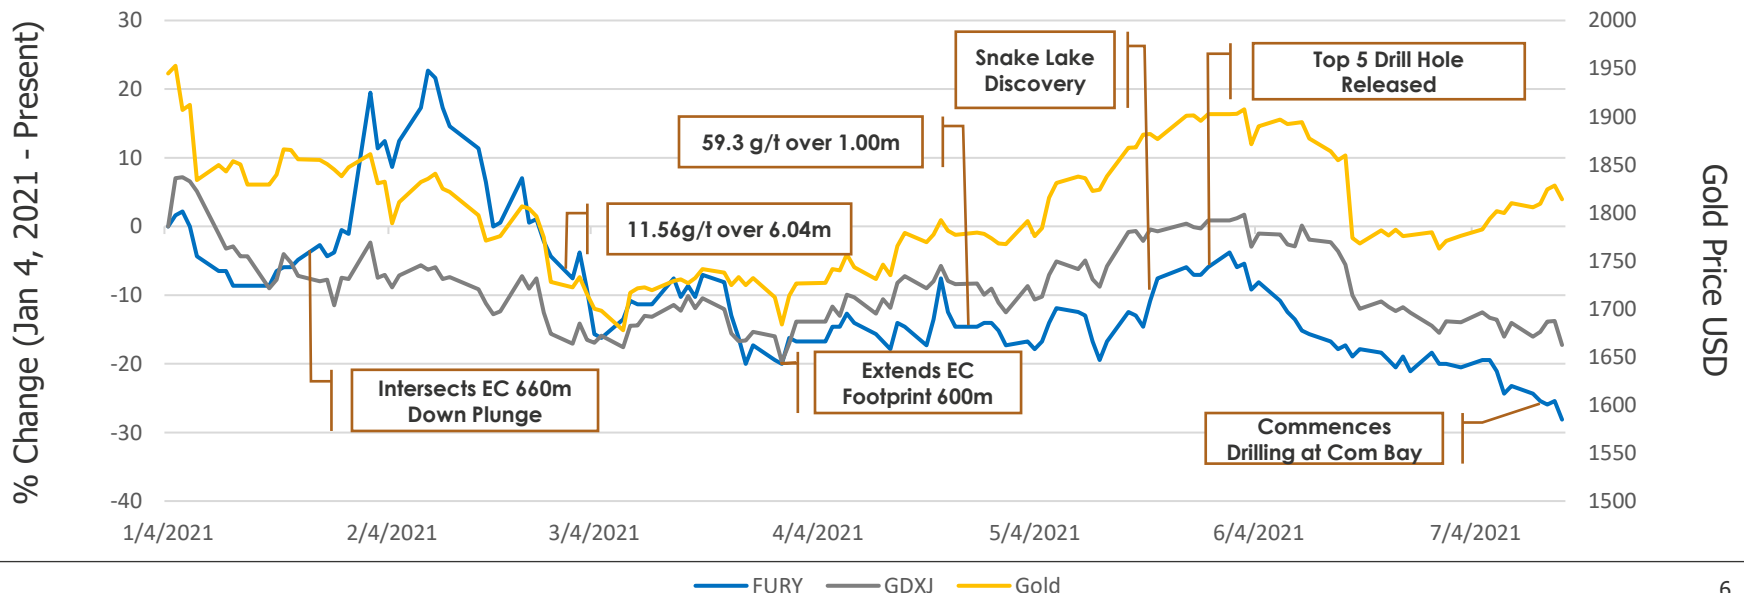

### Share Structure (as of June 29, 2021)

### TSX & NYSE-A / FURY

Shares Outstanding	117.9M
Options Out. (\$2.44 avg.)	8.1M
Warrants Out. (\$1.76 avg.)	1.1M
Three-Month Avg. Vol. (CA/US)	224k/222k
Market cap (as at June 1, 2021)	C\$176.9M
Analysts – Consensus Target	C\$3.50 / Buy (5/5)

### Fury YTD Relative Price Performance

# Responsible Leadership

## Environment, Social and Governance

### Management

**Mike Timmins**  
CEO, Director

**Michael Henrichsen**  
SVP, Exploration

**Salisha Ilyas**  
VP, Investor Relations

**Lynsey Sherry**  
CFO

**Bryan Atkinson**  
VP, Projects

### Board

**Ivan Bebek**  
Chair

**Steve Cook**  
Director\*

**Saga Williams**  
Director\*

**Jeffrey Mason**  
Lead Director\*

**Michael Hoffman**  
Director\*

**Tim Clark**  
Director\*

### ESG Update

#### Environment

- Stewardship training for project contractors, drillers
- Initiating environmental base lines studies at Eau Claire
- Renewable energy – Hydro QC EM1 power station 18km away

#### Social

- Sponsorship support for WIM, corporate Indigenous initiatives
- Monthly health and safety training
- Site COVID rapid testing approved by QC public health

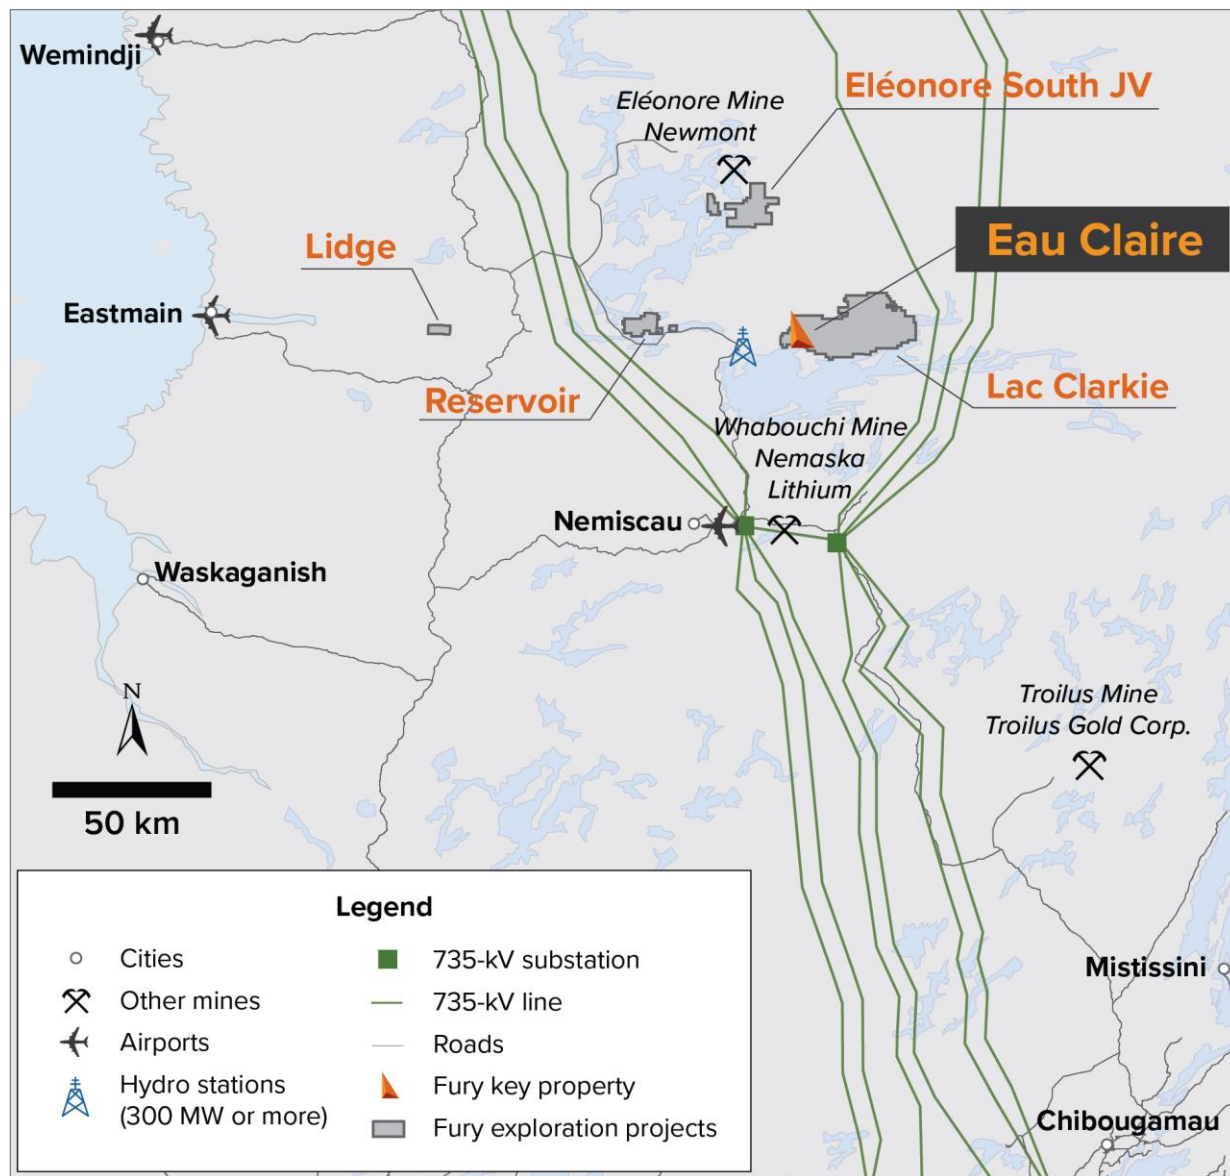

#### Governance

- Added role of Lead Director
- Indigenous representation on FURY Board
- Established Disclosure Committee

# Eau Claire – James Bay Region of Quebec

## Current Exploration Focused on Deposit Trend Discovery

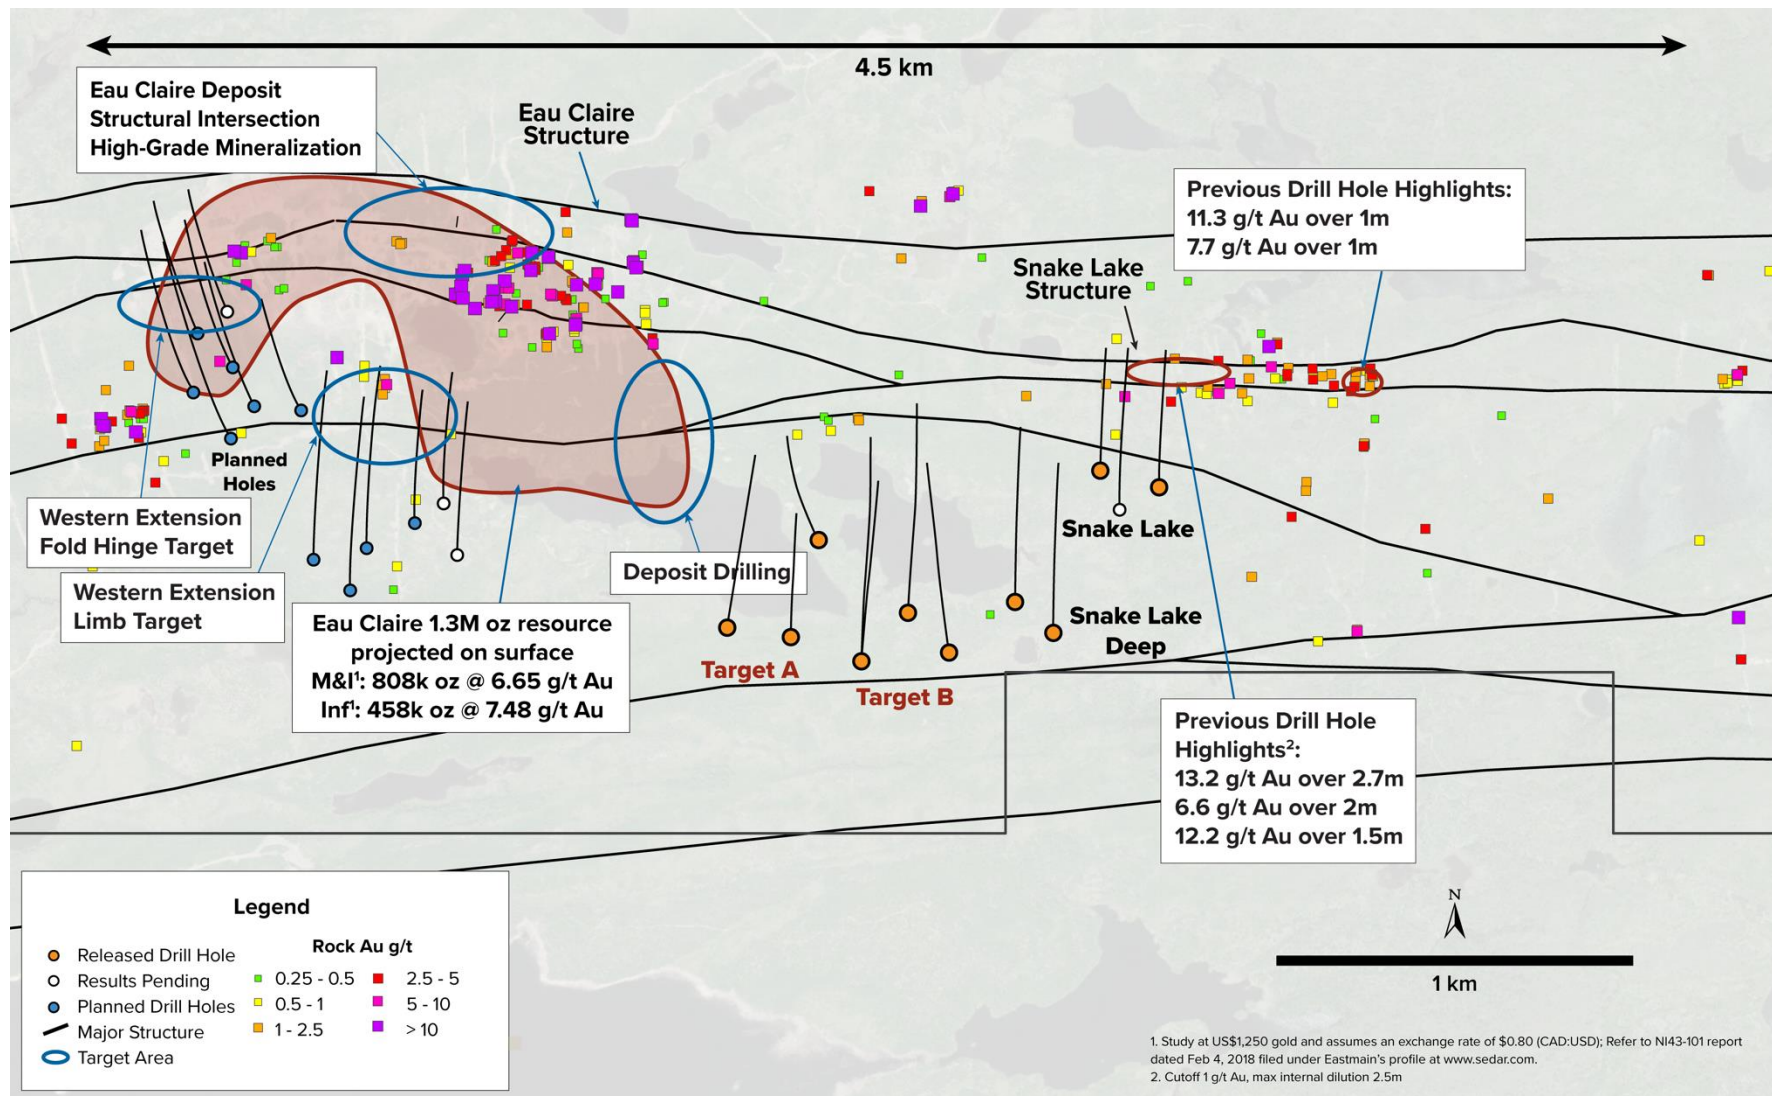

- ▶ 2018 PEA NPV<sub>5%</sub>  
(US\$1,500 oz/Au):  
C\$397M
- ▶ High quality resource
  - ▶ M&I<sup>1</sup>: 808k oz @  
6.65 g/t Au
  - ▶ Inf<sup>1</sup>: 458k oz @  
7.48 g/t Au
- ▶ Intercepting high-grade gold outside of the known resource
- ▶ Drilling significant extension targets at Snake Lake and 850 Hinge Zone
- ▶ Identifying multiple targets on trend

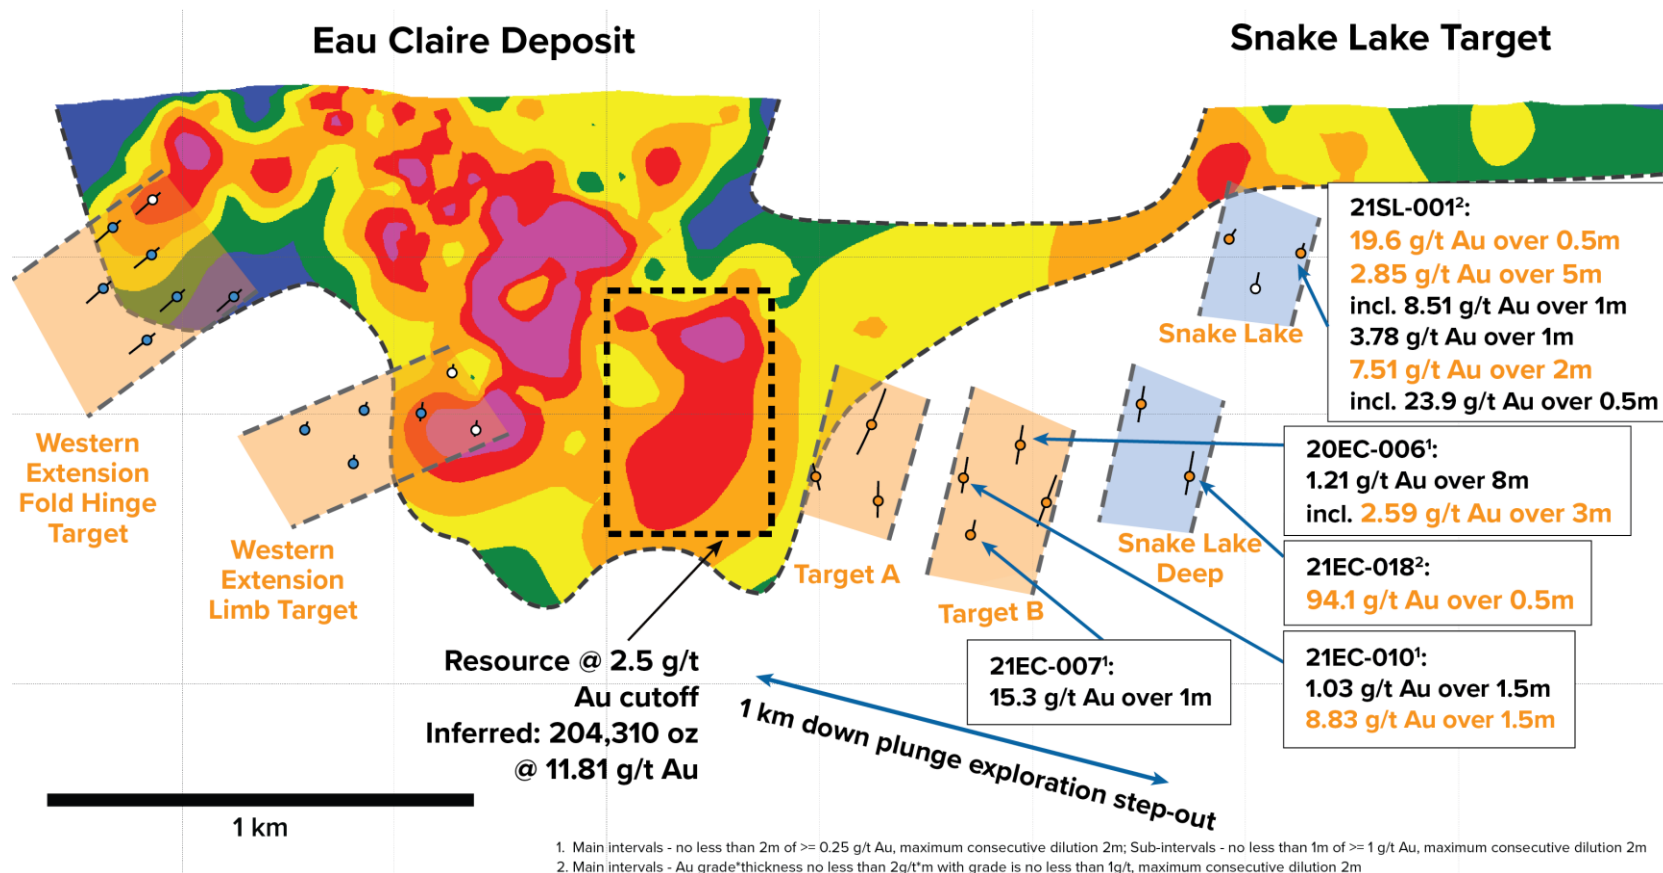

# Eau Claire – Deposit Trend Target Areas

## Exploration Drilling Continues to Reveal Significant Potential

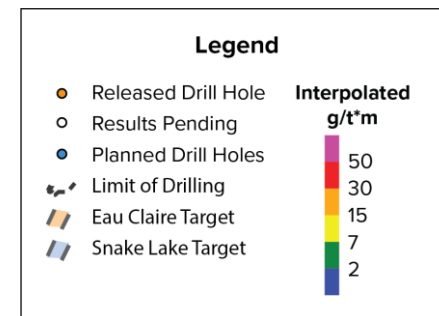

# Eau Claire – Deposit Trend Long Section

## Resource Remains Open for Expansion in All Directions

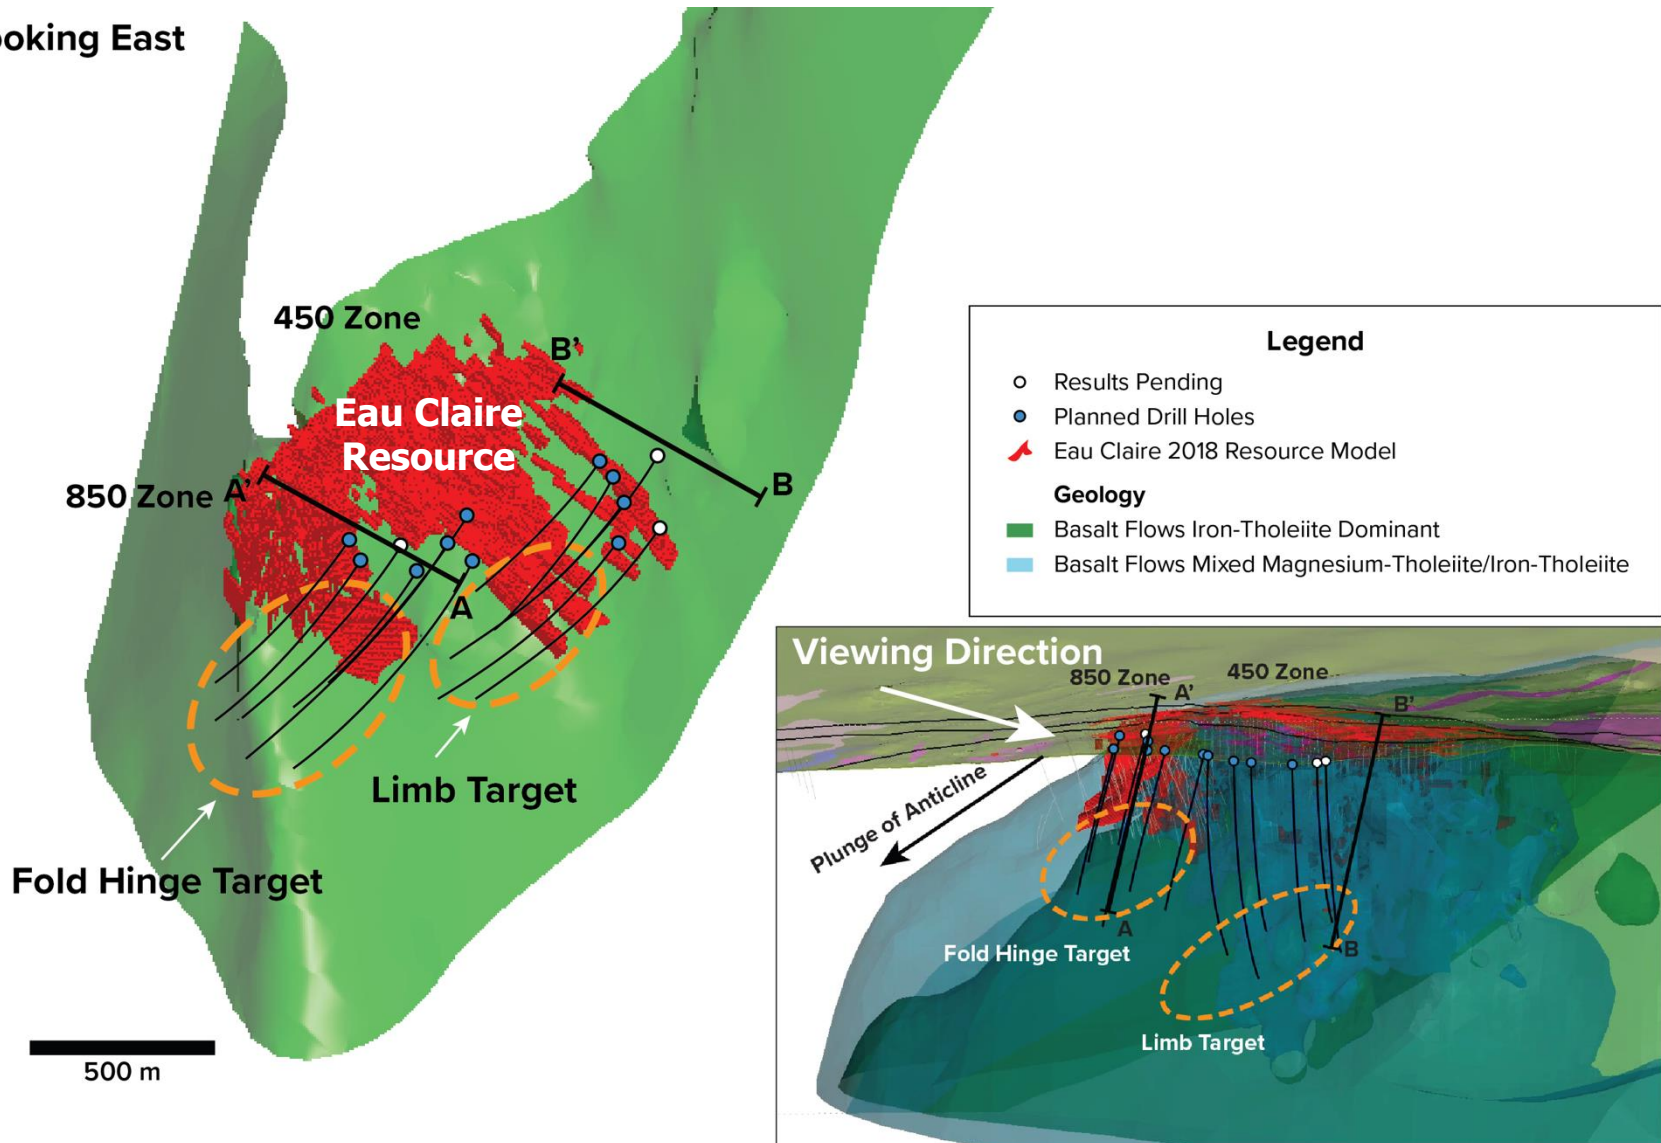

- ▶ Resource defined by the limit of drilling
- ▶ Currently targeting five areas of potential growth
- ▶ Snake Lake structure results extends high-grade mineralization 840 metres down dip and identifies new zone

# Eau Claire – Structural View and Western Extension

## The Fold Hinge and Limb Targets Remain Untested

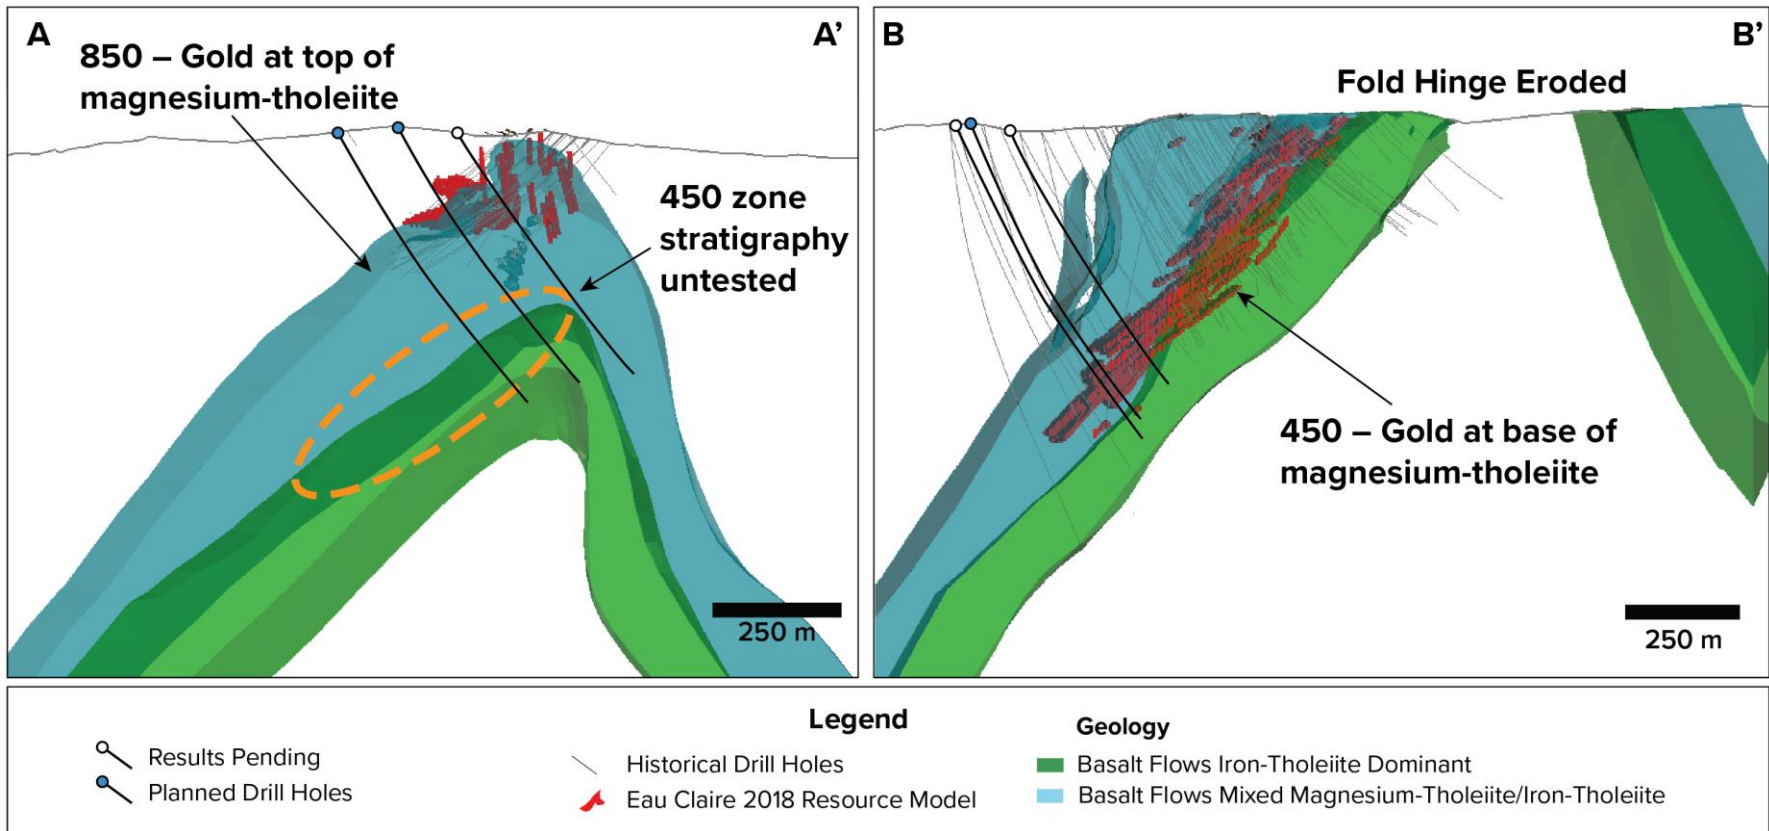

Looking East

# Eau Claire – 850 Zone Fold Hinge

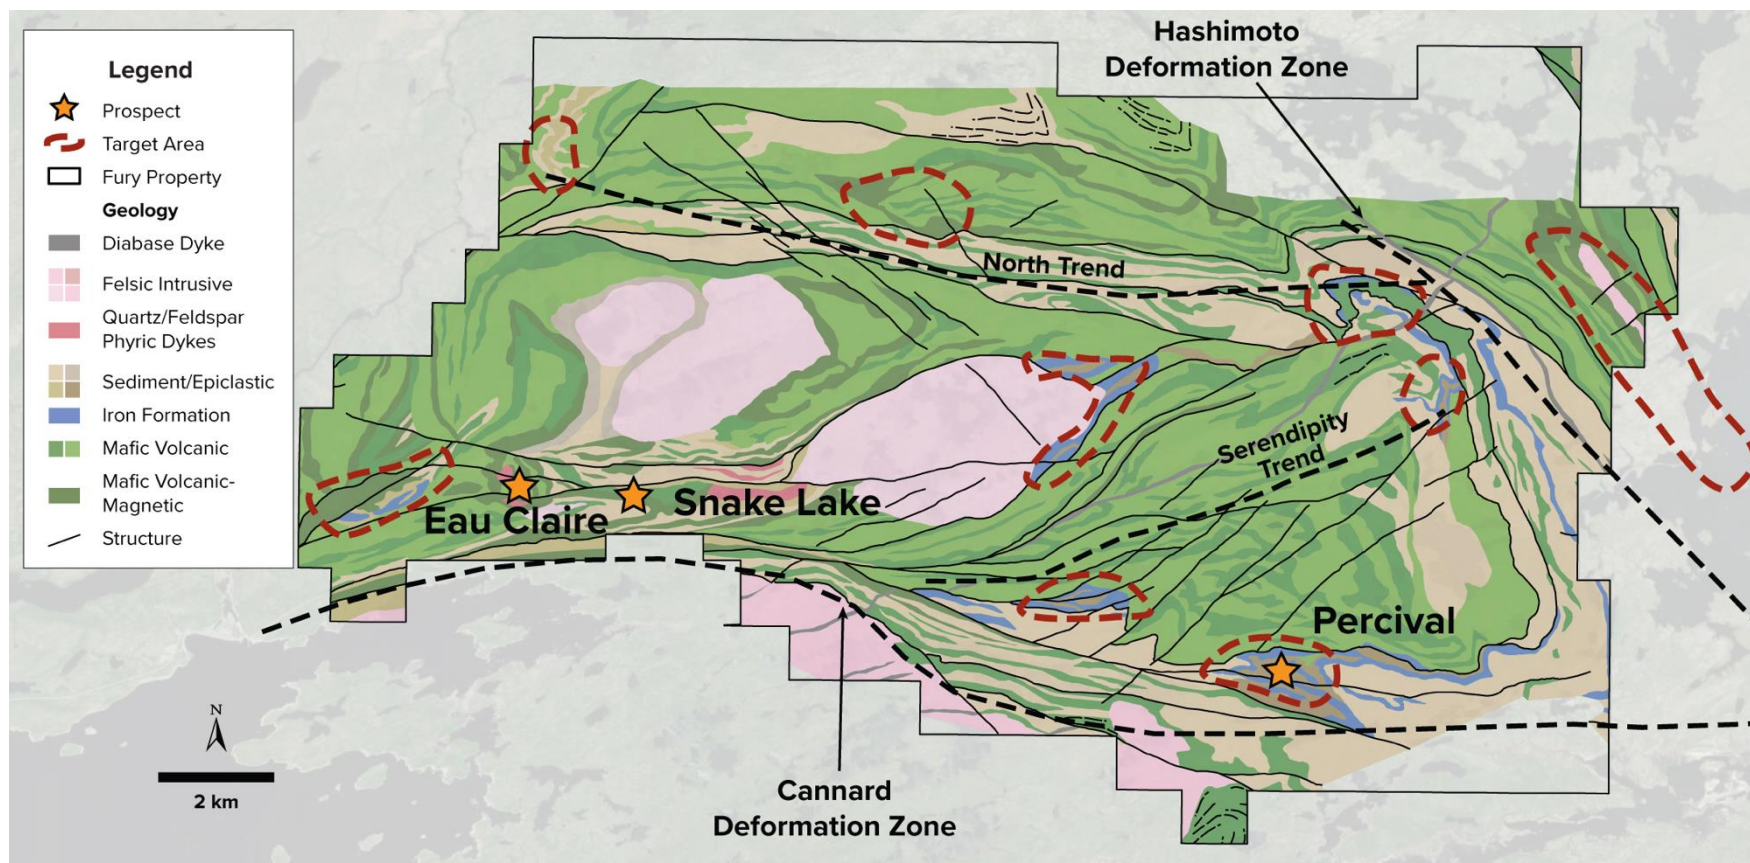

## Drilling Focused on Testing Favourable Stratigraphy

- ▶ The Eau Claire resource is located at the contact between two distinct basaltic (i.e. rock) units
- ▶ The Fold Hinge target is located at a shallow depth (of 200m to 400m) and has never been drill tested

# Eau Claire – Regional Geology and Targets

## 9 High Priority Targets Advancing to Drill Stage

- ▶ 30 kilometres of discovery potential along the Cannard deformation corridor
- ▶ Follow up on Percival discovery (2018); prepare prospect for Q4 drilling
- ▶ Summer program focused on six principal regional targets; mapping, geochem and IP

# Committee Bay – Large-Scale Exploration in Nunavut

## A Unique Opportunity with World Class Potential

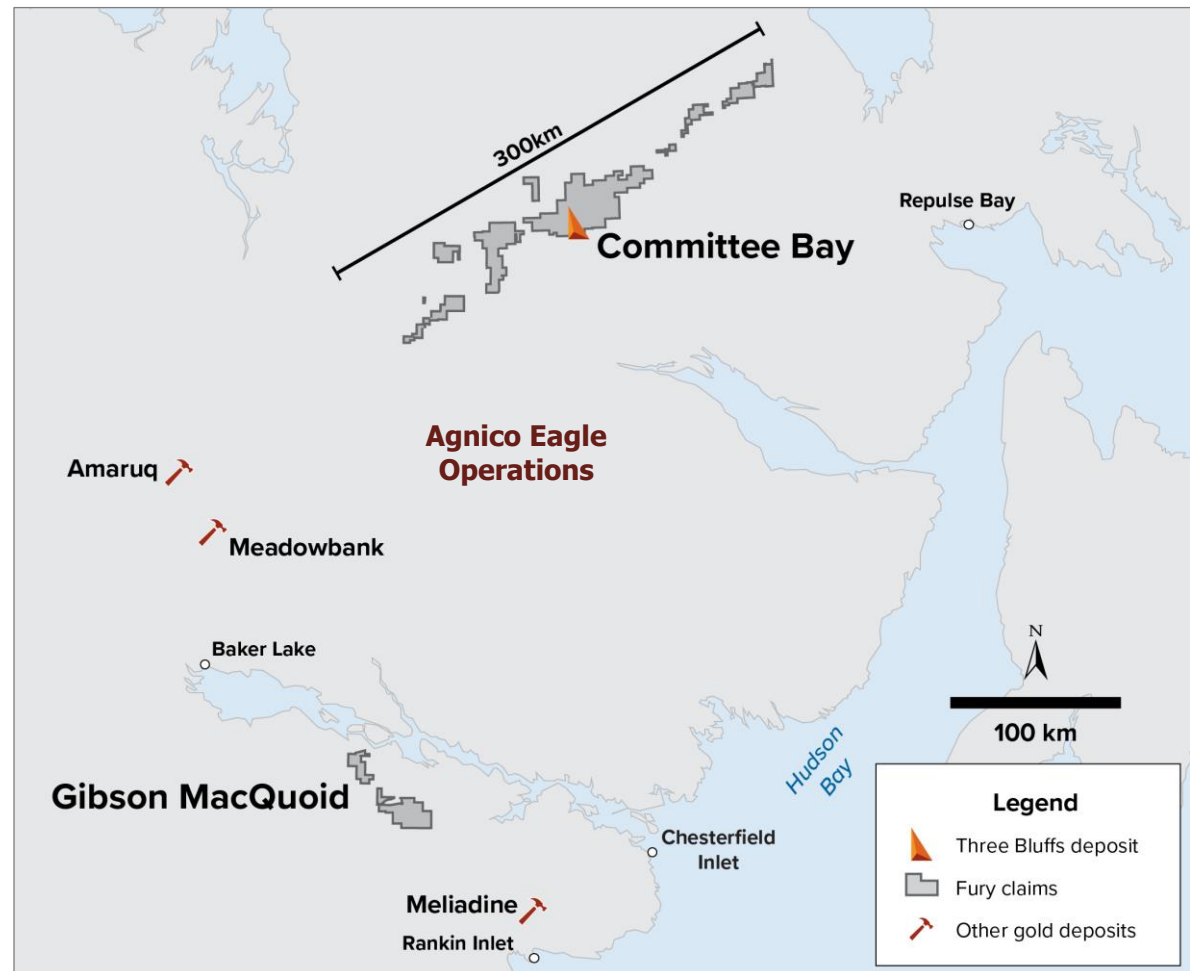

- ▶ Targeted, high-impact program drilling high-grade along 8km shear zone at Raven
- ▶ Drill testing large conductor to extend high-grade mineralization at Three Bluffs

### Advanced Exploration

- ▶ Over 270,000 hectares
- ▶ Belt-wide geochem and geophysics complete
- ▶ Logistics: full camp, rigs, and fuel at site
- ▶ \$160M invested to-date

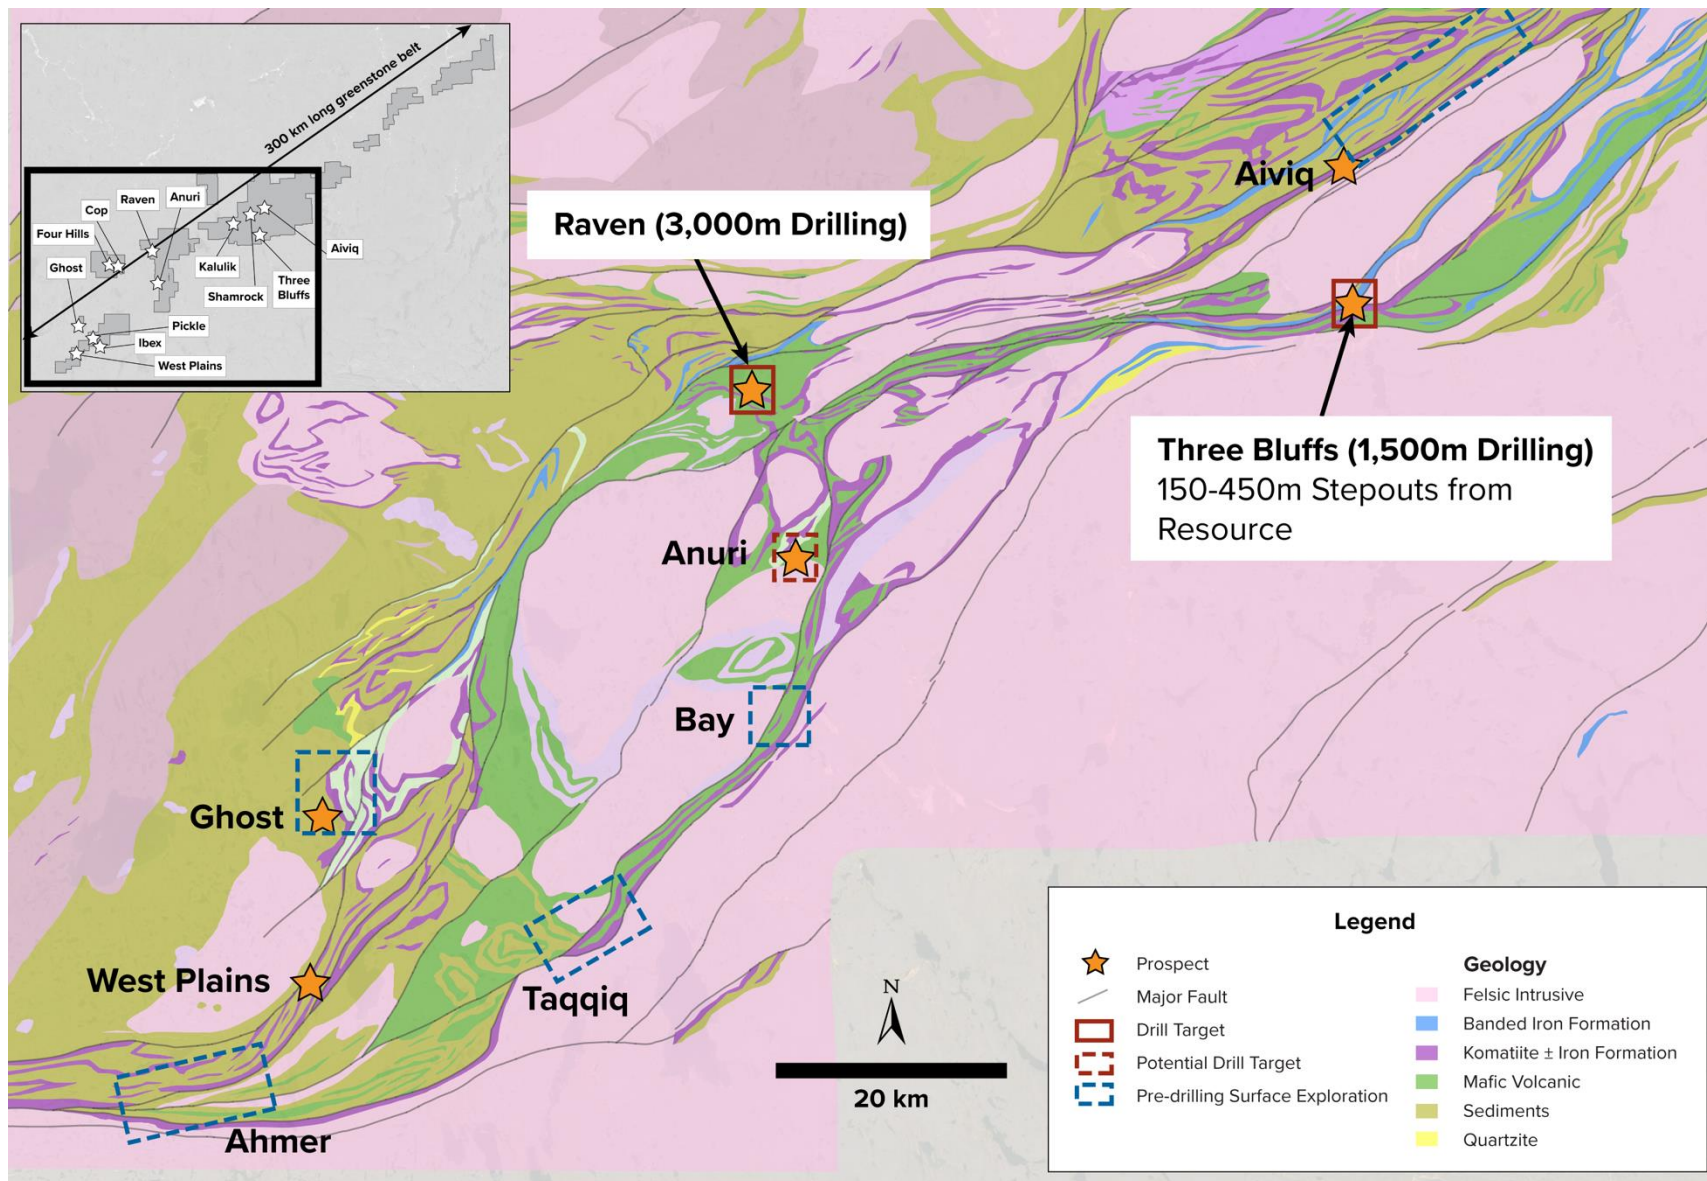

### Three Bluffs Deposit

- ▶ Indicated<sup>1</sup>: 524k oz at 7.85 g/t Au
- ▶ Inferred<sup>1</sup>: 720k oz at 7.64 g/t Au

# Committee Bay – Summer Work Plan

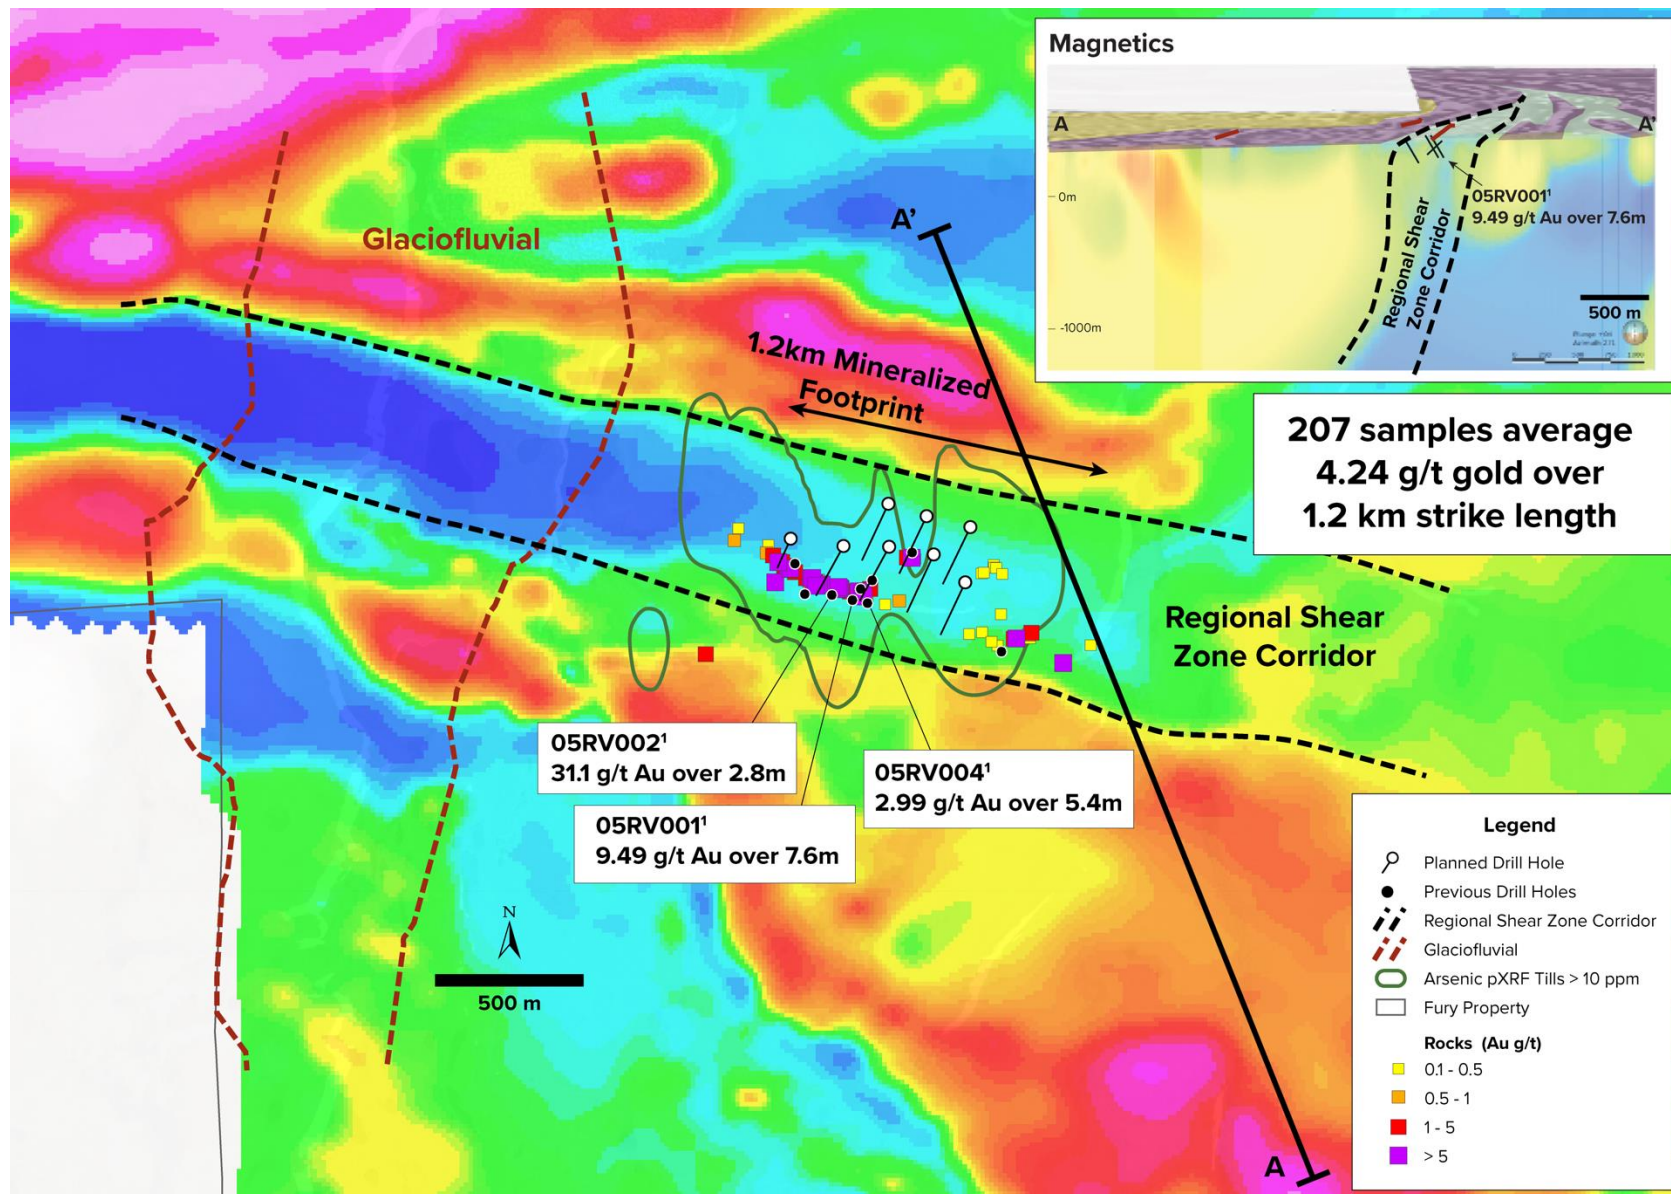

## Exploration for Discovery and Resource Expansion

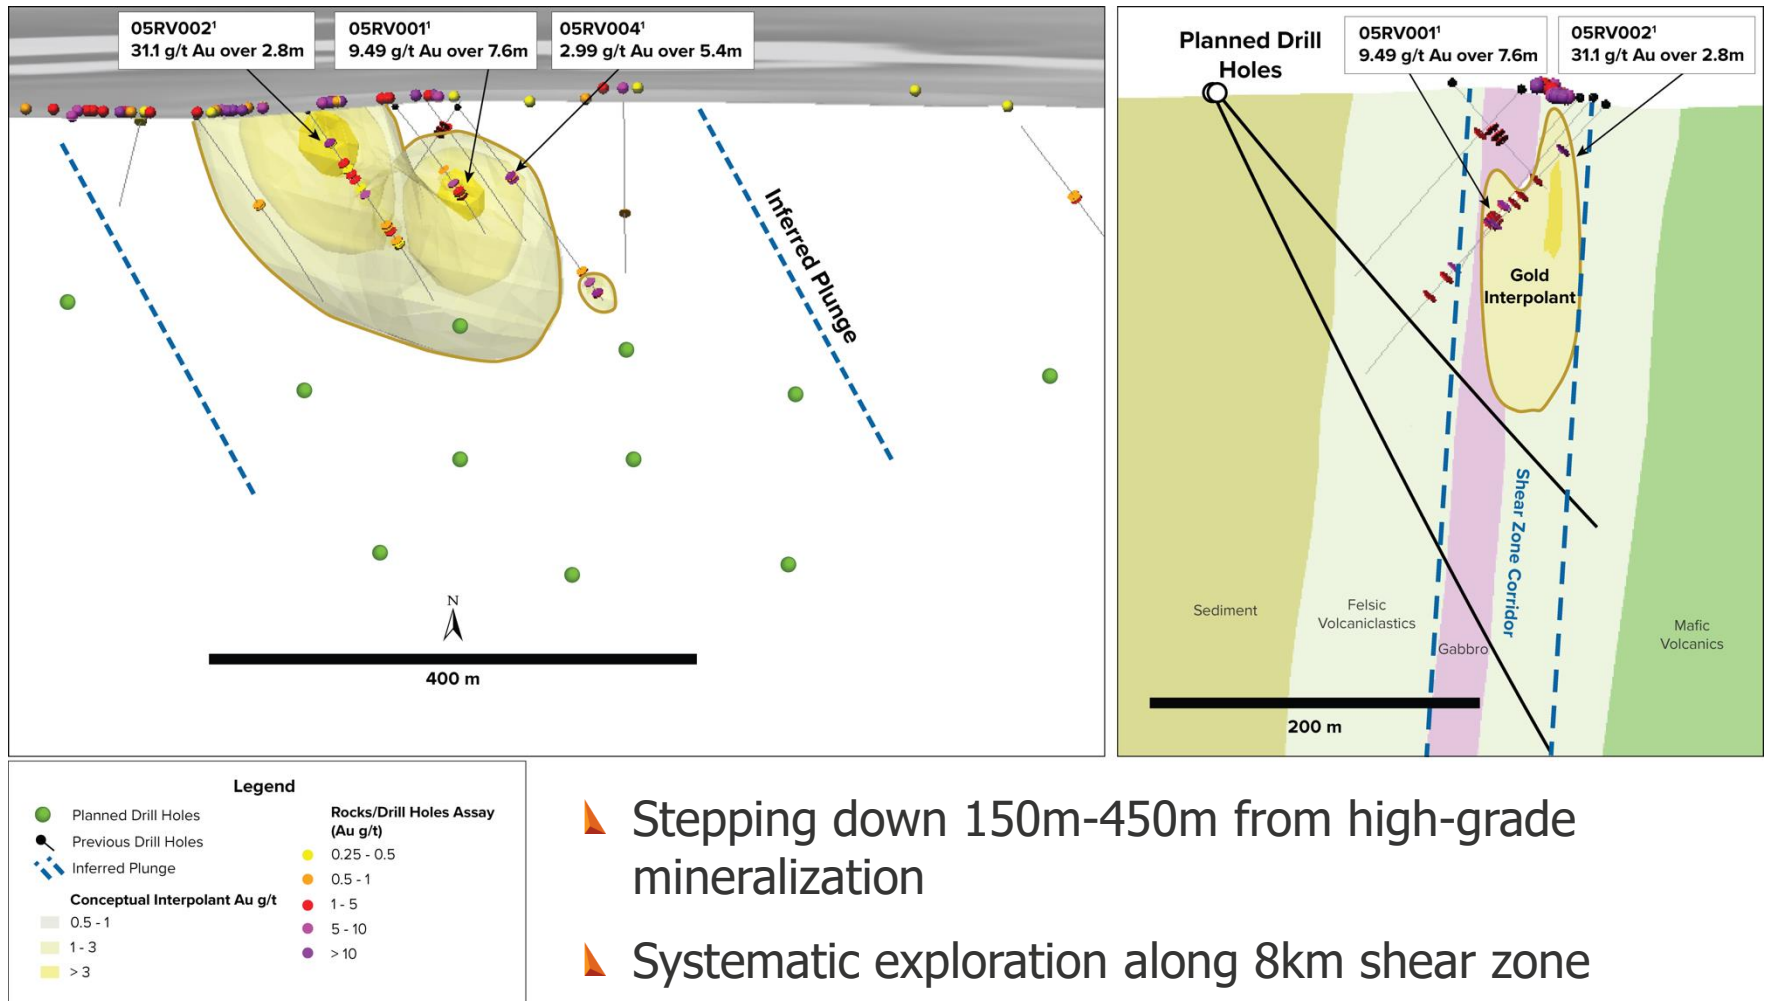

# Committee Bay – Raven Regional Shear Zone Corridor

## Exploration Drilling to Test Potential Depth Extensions

# Committee Bay – Raven Prospect

## Proposed Exploration Drill Plan Over 1km Strike Length

- ▶ Stepping down 150m-450m from high-grade mineralization
- ▶ Systematic exploration along 8km shear zone

# Committee Bay – Three Bluffs

## Exploration Drilling to Demonstrate Resource Expansion

- ▶ High-grade mineralization associated with EM conductors – untested 600m x 200m target
- ▶ Stepping down 150m-300m from high-grade intercepts

### Long Section

1. Intercepts were calculated using a minimum of a 2.0 g/t Au cut off at beginning and end of the intercept and allowing for no more than 2.5 consecutive meters of less than 2.0 g/t Au. Minimum length of the composite intercept allowed was two metres.

# Catalysts in 2021

## Drive Value Through Exploration Drilling

- ▶ Continue to advance and pursue new discoveries at Eau Claire
- ▶ Pursuing world-class discoveries at Committee Bay in Nunavut
- ▶ Expand and upgrade the Homestake Silver Zone
